

S0201 | SELECTED POPULATION PROFILE IN THE UNITED STATES

2014 American Community Survey 1-Year Estimates

Note: This is a modified view of the original table.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Subject	Marion County, Indiana			
	Total population	Black or African American alone or in combination with one or more other races	Hispanic or Latino (of any race) (200-299)	White alone, not Hispanic or Latino
	Estimate	Estimate	Estimate	Estimate
TOTAL NUMBER OF RACES REPORTED				
Total population	934,243	269,386	91,772	540,401
One race	97.4%	94.1%	95.9%	100.0%
Two races	2.5%	5.3%	3.4%	(X)
Three races	0.2%	0.6%	0.7%	(X)
Four or more races	0.0%	0.0%	0.0%	(X)
SEX AND AGE				
Total population	934,243	269,386	91,772	540,401
Male	48.2%	46.1%	52.9%	48.4%
Female	51.8%	53.9%	47.1%	51.6%
Under 5 years	7.5%	9.0%	12.8%	5.9%
5 to 17 years	17.4%	21.9%	27.9%	13.3%
18 to 24 years	9.8%	11.2%	10.5%	8.9%
25 to 34 years	16.4%	14.7%	18.0%	16.7%
35 to 44 years	12.9%	12.7%	15.8%	12.4%
45 to 54 years	13.0%	12.2%	8.7%	14.2%
55 to 64 years	11.7%	10.1%	4.0%	14.2%
65 to 74 years	6.4%	4.9%	1.3%	8.1%
75 years and over	4.9%	3.4%	0.9%	6.5%
Median age (years)	34.2	30.1	24.1	39.3
18 years and over	75.1%	69.1%	59.2%	80.8%
21 years and over	71.3%	64.7%	55.8%	77.5%
62 years and over	14.3%	10.7%	3.2%	18.2%
65 years and over	11.3%	8.3%	2.2%	14.6%
Under 18 years	232,961	83,301	37,437	103,626

Subject	Marion County, Indiana			
	Total population	Black or African American alone or in combination with one or more other races	Hispanic or Latino (of any race) (200-299)	White alone, not Hispanic or Latino

	Estimate	Estimate	Estimate	Estimate
With a broadband Internet subscription	69.7%	55.9%	61.5%	76.1%

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Data for the households, families, occupied housing units, owner-occupied housing units, and renter-occupied housing units lines refer to the specified race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the householder shown in the table. Data in the "Total population" column are shown regardless of the race, Hispanic or Latino, American Indian or Alaska Native, or ancestry of the person.

Due to methodological changes to data collection that began in data year 2013, comparisons of language estimates from that point to estimates from 2013 forward should be made with caution. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

The health insurance coverage category names were modified in 2010. See ACS Health Insurance Definitions for a list of the insurance type definitions.

The category "with a broadband Internet subscription" refers to those who said "Yes" to a DSL, cable, fiberoptic, mobile broadband, satellite, or fixed wireless subscription.

While the 2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
